Software Engineering Undergraduate · Tianjin University · Blockchain
Consensus

PROFILE

Now

Research-oriented software engineering undergraduate
Junior undergraduate with solid mathematical foundation, strong learning ability, and hands-on experience in research-oriented engineering projects.
大三软件工程本科生，数理基础扎实，学习能力强，具备科研探索与工程项目基础。

个人概述

EDUCATION

2022.08 · 2027

B.Eng. in Software Engineering
Tianjin University · College of Intelligence and Computing / School of Software
GPA 3.82/4.00 · Average score 90.02 · Rank 17/131 (top 12.97%) · Credits earned 173.5 / required 162.5.
天津大学智能与计算学部 / 软件工程学院，平均分 90.02，GPA 3.82/4，专业排名 17/131（前 12.97%），已获学分 173.5。

教育背景

Transfer

Major transfer to Software Engineering
Transferred from architecture-related study to computer science in the third semester and completed required make-up coursework.
第 3 学期从建筑相关专业转入计算机方向，已完成课程补修。

RESEARCH

2025.04 · Present

Blockchain and Trusted Computing · TJU Tank Lab
Research on consensus protocols in blockchain systems, with current focus on reliability and performance optimization under asynchronous and partially synchronous BFT models.
Work includes protocol reading, code implementation, testing, performance comparison, optimization experiments, and large project maintenance.
天津大学 Tank Lab 网络安全、区块链与可信计算方向；研究区块链共识协议，近期关注异步共识与部分

	Before transfer	同步共识协议的可靠性和性能优化。 Social Science Digitalization · Wang Miao Team Applied GIS, data cleaning, and quantitative analysis methods to study the social impact of the Double Reduction policy. 在天津大学建筑学院风景园林系参与社会科学数字化研究，形成科研成果一篇。 Research on the Activate Potential of Open Spaces Around Primary and Secondary Schools Under the Background of the “Double Reduction” Policy. 王苗，李嘉仪，周天昊，许涛* / WANG Miao, LI Jiayi, ZHOU Tianhao, XU Tao*
MANUSCRIPTS		
论文进展	In preparation	Asynchronous consensus manuscript A blockchain BFT consensus manuscript is currently under review at ICDE 2027. 区块链异步共识方向论文 ICDE 2027 在投。
	Planning	Partially synchronous consensus manuscript Follow-up research and experiments around partially synchronous consensus are being prepared for INFOCOM-oriented discussion. 部分同步共识方向论文筹备中，面向 INFOCOM 相关研究讨论。
COURSEWORK		
核心课程	Summary	Academic performance overview GPA 3.82/4.00 · Average score 90.02 · Rank 17/131 (top 12.97%). Detailed grades for core computer science coursework are listed in the Appendix at the end of this page. GPA 3.82/4，平均分 90.02，专业排名 17/131（前 12.97%）。计算机核心专业课完整成绩见页面末尾附录。
PROJECTS		
	2025 · 2026	Software engineering practice: complex microservice system Built and maintained Tianjin University software engineering practice projects, including a complex microservice archive, intermediate practice work, and course-level engineering documentation. 天津大学软件工程综合、中级与高级实践项目，覆盖复杂微服务系统、工程文档、团队协作与交付流程。
	Data · Visualization	Crime-rate analysis and interactive data visualization Completed crime rate analysis and visualization

项目经历		Completed data analysis and visualization practice around crime-rate data, covering data cleaning, exploratory analysis, comparative chart design, and visual storytelling. 基于犯罪率数据完成清洗、统计分析、交互式可视化与图表叙事，是数据分析与可视化实践的核心项目之
	NLP · ML	ReLU-based natural language processing experiments Implemented NLP coursework experiments around neural network modules, activation functions, text preprocessing, training, evaluation, and result analysis. 自然语言处理课程实验，围绕 ReLU 等神经网络模块、文本预处理、模型训练、评测与实验分析展开。
	CV · Graphics	Computer Vision and computer visualization practice Coursework repository covering image/visual computing practice, visualization tasks, and implementation-oriented experiments in the computer vision and graphics track. 计算机视觉与计算机可视化相关课程项目，覆盖图像/视觉计算、可视化任务和工程实现实验。
	Open Source	Online judging system and course project archive Public Gitee repositories also include an open-source software practice judging system, compiler theory, frontend development, design patterns, and systems coursework. 公开仓库还包括开源软件实践在线评测系统、编译原理、前端开发、设计模式与计算机系统课程项目。
	2023.10 · 2024.07	Digital plant cultivation and modular planting technology Provincial innovation project; mid-term review rated excellent (top 20%) and completed successfully. 数字化植物培养与模块化种植栽培技术大创项目，中期审查优秀（top 20%），省级项目已顺利结题。
HONORS		
荣誉奖项	2025	National Scholarship Undergraduate national scholarship. 2025 年度本科生国家奖学金。
	2025	Tianjin University second prize scholarship Ranked 3/129 in scholarship evaluation; also awarded Outstanding League Member. 天津大学三好学生二等奖学金（3/129），优秀共青团员。
	Sports	Marathon and half-marathon awards National second-level athlete in half marathon.

SKILLS

APPENDIX
语言与技能

TypeScript	Python	C++	Go	Rust	Blockchain
BFT Consensus	Project Testing	CET-6 595	CET-4 623		
English Writing	Collaboration				

Core Computer Science Coursework

计算机核心专业课成绩

COURSE	课程	CREDITS	GRADE
Probability and Statistics	概率论与数理统计	3.5	95
University Physics I	大学物理2A	4.0	95
University Physics II	大学物理2B	3.0	97
Data Structures	数据结构	3.0	94.8
Object-Oriented Programming	面向对象程序设计	2.0	96
Algorithm Design and Analysis	算法设计与分析	3.0	96
Operating Systems	操作系统原理	2.0	92
Database Systems	数据库系统	2.0	90
Computer Systems Foundation I	计算机系统基础1	3.0	93
Computer Systems Foundation II	计算机系统基础2	3.0	94
Computer Systems Practice	计算机系统综合实践	3.0	99
Programming Principles	程序设计原理	3.0	89
Formal Methods	形式化方法（双语）	2.0	92
Software Engineering I	软件工程1（双语）	2.0	83
Software Engineering II	软件工程2（双语）	2.0	91
Intermediate Software Engineering Practice	软件工程中级实践	1.5	93
Data Analysis and Visualization Practice	数据分析与可视化实践	1.5	94
Natural Language Processing	自然语言处理	2.0	98
Open Source Software Development Practice	开源软件导论	1.0	92
Distributed Systems	分布式系统	2.0	88.4

附录

Compiler Principles and Techniques	编译原理与技术	2.5	83.5
Design Patterns	设计模式	1.5	99
